

MULTI WEDGE BAG FILTER WITH HEADER FRAME (3 POCKETS)

Specifications

- Series : Pocket Series
- Frame : Galvanized sheet metal
20mm header frame
- Media : Polyester media
- Fire retardant grade : UL900
- Temperature : $\leq 100^{\circ}$ C
- Efficiency : G4 – Rating
- Recommended final pressure
drop ≤ 250 Pa

Advantage

Available in different capacities from Medium to High efficiency. Filtration can be performed at low resistance.

Applications

Polyester media pocket filters are used in both commercial and industrial applications and others such as hospital, schools and public building. They are installed in general air conditioning plants. Pocket filters also used as a medium filter in clean room filtration.

Description

These pocket filters are constructed with Polyester media and assembled in galvanized steel frame. Our pocket filter offers high efficiency filtration while maintaining low resistance to air-flow.
