

# Chia Seed Oobleck

## What you will need

- 1/4 cup chia seeds
- 1 & 3/4 cups water
- food colouring
- 3 - 4 cups corn flour

## How to make Chia Seed Oobleck

Mix the Chia seeds, water and food colouring together.

Cover and refrigerate overnight.

Uncover and add the corn flour a little at a time. About a cup at a time. Mix and then continue until you achieve the desired consistency. It should look like regular slime.

Slimy, and slips off of your hands.

Slime can be stored, covered in the refrigerator. You will need to add a little water each time you take out to play.

(As this will reactive the slime.)

This slime is safe to eat - however,  
I don't think it would taste nice.

If you have enjoyed this experiment  
why not take a look at Dr Seuses'  
Bartholomew and the Oobleck.

**Have fun!**
